1 Introduction

This document outlines the general plan and framework for developing new standardized tests under the GATE initiative. The goal is to ensure consistency, fairness, accessibility, and academic rigor across all future test versions and modules.

2 Exam Structure Overview

[leftmargin=*]

- **Total Duration:** 2 hours and 36 minutes (excluding breaks)
- **Sections:**
- **Reading & Writing (R&W):** 3 modules totaling 60 points
- **Mathematics (Math):** 3 modules totaling 55 points + 5 bonus
- **Global Mind Essay:** 1 module, 10 points (optional for reporting)
- **Scoring System:**
- Regular questions: 1 point each
- Math questions: 1 point each (+5 bonus for optional advanced question)
- Global Mind essay: 10 points

3 Reading & Writing Module Design

3.1 Module 1 – Foundation Level

- **Time:** 30 minutes for 30 questions - **Difficulty:**
- 10 Easy questions
- 20 Medium questions
- **Content Focus:**
- Vocabulary in context
- Main idea and purpose
- Logical completion and inference
- Grammar and sentence structure

- Transition words and punctuation
- **Style:** Leans toward ACT but with slightly more challenging questions than typical ACT first module.
- **Question Types:** Multiple-choice and short written responses

3.2 Module 2 – Advanced Analysis

- **Time:** 25 minutes for 20 questions - **Difficulty:**
- 5 Medium questions
- 10 Hard questions
- 5 Extra Hard questions
- **Content Focus:**
- Comparative analysis of two texts
- Complex logical reasoning
- Synthesis of information
- Argument evaluation
- **Style:** Leans toward SAT with deeper critical thinking and analytical focus.
- **Question Types:** Multiple-choice and short written responses

3.3 Module 3 – Global Mind Essay

- **Time:** 15 minutes for 1 essay - **Word Limit:** Maximum of 200 words - **Focus:**
- Critical thinking
- Ethics and social awareness
- Personal reflection or problem-solving
- **Grading Criteria:**
- Clarity of ideas (40%)
- Logical organization (30%)
- Use of evidence (20%)
- Language and grammar (10%)

4 Mathematics Module Design

4.1 Module 1 – Algebraic Foundation

- **Time:** 35 minutes for 30 questions - **Content Focus:**
- Algebraic manipulation
- Linear equations and inequalities
- Functions and graphs
- Data interpretation
- Geometry basics
- Probability and statistics
- **Format:**
- 25 Multiple-Choice Questions (MCQ)
- 5 Short Answer Questions (SAQ)

4.2 Module 2 – Advanced Problem Solving

- **Time:** 30 minutes for 25 questions - **Content Focus:**
- Systems of equations
- Quadratic equations and vertex form
- Exponential functions
- Trigonometry
- Polynomials and factoring
- Real-world word problems
- **Format:**
- 20 Multiple-Choice Questions (MCQ)
- 5 Short Answer Questions (SAQ)

4.3 Module 3 – Advanced Question (Bonus)

- **Time:** 15 minutes for 1 question - **Content Focus:**

- Calculus-level mathematics
- Integration of multiple concepts
- Challenging logic or real-world application
- **Format:**
- Either:
- Multiple-choice (MCQ) — 4 options
- Long answer (LAQ) — Requires explanation and solution
- **Scoring:** +5 bonus points if attempted

5 Team Workflow and Development Plan

5.1 Phase 1: Content Creation

- **Task Force 1: Reading & Writing**
- Develop 30 easy/medium questions for Module 1
- Create 20 medium/hard/extra hard questions for Module 2
- Draft 10 Global Mind prompts
- **Task Force 2: Mathematics**
- Write 30 algebra-based questions for Module 1
- Write 25 advanced math questions for Module 2
- Develop 1 bonus calculus or complex problem for Module 3

5.2 Phase 2: Review and Refinement

- **Quality Assurance Team:**
- Check alignment with SAT/ACT standards
- Ensure clarity and fairness in all questions
- Test difficulty levels using pilot groups
- **Feedback Loop:**
- Gather feedback from educators and students

- Adjust timing and difficulty as needed

5.3 Phase 3: Pilot Testing

- Conduct small-scale tests with diverse student populations.
- Collect data on performance and adjust scoring rubrics accordingly.

5.4 Phase 4: Finalization and Launch

- Finalize exam structure, content, and timing.
- Publish the official test guide and sample materials.
- Launch online registration platform and testing centers.

6 Tools and Resources

[leftmargin=*

- Use SAT-style question banks for reference and pattern recognition
- Borrow formats and adapt them to fit GATE’s unique identity
- Use LaTeX for formatting guides and manuals
- Utilize GitHub for version control and collaboration

7 Timeline

Phase	Duration	Deliverables
Content Creation	4 weeks	Full question banks for R&W and Math
Review and Refinement	2 weeks	Revised question sets and rubrics
Pilot Testing	2 weeks	Performance data and adjustments
Finalization	1 week	Final exam format, guide, and launch

8 Conclusion

This plan ensures that our team can systematically build high-quality, fair, and accessible exams aligned with both ACT and SAT standards while maintaining the unique identity of GATE. It provides a clear roadmap for content creation, review, and implementation.
